MORI/CDF

25X1

- d. Pressure is continually exercised "to fill the job record sheets" and to make it look as if a big volume of work is continually done.
- e. Employees in the Lab have no faith that changes to improve working conditions and morale in the Photo Lab Branch will be undertaken. Management is aware of the deficiencies but has not made any moves to rectify them.
- 3. These two interviews illustrate the desirability for accelerating the measures outlined in the referenced memorandum. In particular there seems to be an immediate need for implementation of Paragraph 2e. of referenced memorandum.
